

BRIXCHART

| | POOR | AVG | GOOD | BEST |
|--------------|------|-----|------|------|
| alfalfa | 4 | 8 | 16 | 22 |
| avocado | 4 | 8 | 16 | 22 |
| bermuda | 2 | 4 | 6 | 8 |
| blueberry | 8 | 10 | 12 | 16 |
| carrots | 4 | 6 | 12 | 18 |
| corn stalks | 4 | 8 | 14 | 20 |
| corn | 6 | 10 | 18 | 24 |
| fescue | 2 | 4 | 7 | 12 |
| field peas | 4 | 6 | 10 | 12 |
| grains | 6 | 10 | 14 | 18 |
| honeydew | 8 | 10 | 14 | 16 |
| peanut | 4 | 6 | 8 | 10 |
| potato (red) | 3 | 5 | 7 | 10 |
| ryegrass | 6 | 10 | 14 | 18 |
| sorghum | 6 | 10 | 22 | 30 |
| squash | 6 | 8 | 12 | 14 |
| sweet corn | 6 | 10 | 18 | 24 |
| sweet potato | 6 | 8 | 10 | 14 |
| watermelon | 8 | 12 | 14 | 16 |

WHAT IS BRIX?

An indication of the amount of sugars and other nutrients in the plant

WHY IS HIGH BRIX IMPORTANT?

More nutrients • Indication of health and nutrient uptake • Less chance of infestation • Tastes better • Lasts longer

SAMPLING TIPS

Sample same part of plant

Same time of day

Same side of plant in orientation to sun

Same age/stage of development

Take during fair weather

Take reading immediately
